### 30<sup>th</sup> SPECIAL OLYMPICS 2023 "CN: Set forth into Adventure land"

#### Cartoon Network: Set Forth into Adventureland

*"People get built different. We don't need to figure it out, we just need to respect it." – Princess Bubblegum*

Not everyone is the same as each other, everyone is made to have different characteristics from one another. We should not strive to be a duplicate of another person but rather accept our own distinction and quirks. Our noteworthiness as separate individuals is what makes us, Special, Unique, and Precious. That is why, for the commemoration of the 3<sup>rd</sup> Decade of Special Olympics, we will celebrate this activity by having different kinds of acts such as performing arts, cooking, free play, arts and crafts, and an obstacle course! This will surely make an impact for kids diving into their inner creativity and imagination as they perform different tasks with their own skills with a dash of enjoyment!

The College of Occupational Therapy organizing a Special Olympics event was conducted on February 13, 2023, participating from the local community and local schools, aimed empowering individuals with special needs through sports. And we have to secure the University of Perpetual Gymnasium as the venue for this impact occasion.

The accessibility and sports facilities make it an ideal location to host the planned sports activities, which are designed to promote inclusive, physical wellness, and a supportive community environment for participants. Also, they can provide a safe and encouraging space for athletes to engage in meaningful sports experiences.
